New advancements – the future of recruitment

Old school

Current widely used solutions

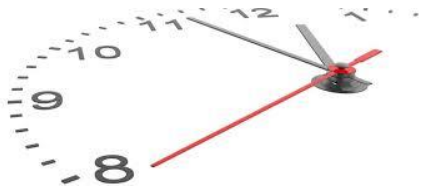

The ridiculous wish list– We needed a solution

- 1 We wanted to screen our database in less than 60 seconds
- 2 We wanted to have a shortlist of candidates ranked and ready to be review
- 3 We wanted to leverage off the collective experience of thousands of recruiters world wide
- 4 And we wanted to find the right candidates in under 15 min.

We wanted to see the magic, so we pulled a rabbit out of a hat and made it happen!

A.I. Solves the Time Problem

Natural Language Pattern Recognition

Collective Machine Learning

Lets calculate time

How much time in minutes does it take you to ...

Time to shortlist 10 -
20 names for 100 -
200 candidates

X

150 min

Time to reach out
and contact the
candidates?

Y

30 min

Total Time:

$$X + Y = Z$$

Total = 180

Lets calculate time

Now take **Z** and divided it by **10 min** and multiply it by **100** to get a percentage...

$$X + Y = Z$$

Total = 180

$$10/Z \times 100 = \dots\%$$
